Collaborative and self-motivated, aiming to contribute innovative solutions to forward-thinking teams.

---

## Experience

### Front End Developer Intern

Samarath Cool • Mumbai Maharashtra  
04/2024 - 06/2024

Developed a responsive and user-friendly front-end website for *Samarath Cool*, a 9-year-old air conditioning repair company. The website is an online portfolio showcasing the company's services, expertise, and positive client reviews. Implemented an engaging layout with smooth animations and modern UI elements, ensuring a seamless device experience. This project involved collaborating with [the client](#) to understand their needs, effectively presenting their work, and enhancing their online presence.

Key Technologies Used:

- HTML, CSS, JavaScript
  - Responsive Web Design
  - Client-Side Scripting and Animations
-
